Item E - Girl's Jewelry Box & Jewelry

- Kendal jewelry box, 5-layer organizer with 4 drawers and glass lid with heart-shaped decor (black with gold), different compartment sizes, ring section, and lift-out layer for stud earrings - this is the perfect piece to transition from "little" to "big" girl
- 25k gold-plated .925 Sterling-silver cubic zirconia halo stud earrings - gorgeous hot pink CZ centers, surrounded by fiery 5A white CZ. These beauties are small but mighty!
- 14k gold-plated zinc lariat double-stack necklace with camellia enamel detail and pearl drop on the 16"+3.5" chain, and the 15" chain has pearls stationed about 1" apart. Lobster-claw clasp
- Cardinal-red heart-shaped pendant and earring set of sparkling zircon, tiny white zircon over the heart pendant reflects light for extra sparkle. Brass over stainless steel for both settings.
- 18k gold-plated set of 5 stackable necklaces - this versatile set is tiny chains with (1) hearts, (2) chip turquoise, (3) rope, (4) turquoise beads, (5) Cuban with gold beads. Lengths are 15.8" and 17.7" with 2.1" extenders. They can be worn separately or interchangeably together.
- "I Love You" bracelet - brilliant red stone beads with an adjustable cord and a white metal and crystal pendant with a dark gray centerpiece. Look through that central cabochon toward a light source, and you'll see that it's actually a lens, magnifying, "I love you" written in 100 languages - this is the perfect reminder of your love for whenever she is having a bad day! This one is very, very cool.
- 14k gold-plated brass bracelet with adjustable slide clasp. This has an elongated, softly-hexagonal, iridescent-white resin druzy inside a metal "frame" on a thin chain. It has a possibly copyright-infringing similarity to Kendra Scott jewelry, but I won't tell if you won't.
- 14k gold-plated butterfly-dangle hoop earrings - earrings are internally brass and zinc, but posts are sterling silver inside for sensitive ears. These are not baby-girl butterflies. The hinged hoops are thick and rectilinear for a more modern "huggie" feel, and the butterflies are more abstract with a double-layer and a textured effect.
- 18k white gold-plated stainless steel. The beautifully cut facets in these subtle four-leaf clovers virtually throw light. Although this is a delicate piece of jewelry, it certainly catches the eye. 6.41"+1.96 extension

Item E - Girl's Jewelry Box & Jewelry, continued

- 14k gold-plated stainless steel, heart-dangle hoop earrings - similar hoops to the butterfly earrings, these are rectilinear hinged "huggie" hoops. These are the largest earrings in the box, at about 0.75" height and width for the hearts, but they only weigh 6g each, according to the website. The hearts are a lovely deep rose pink color and the inlaid cubic zirconia match perfectly to the enamel, so they are really only noticeable as flashes of light.
- "Good Luck" bracelet - similar in style to the "I Love You" bracelet, this is vividly verdant beads with a metal charm of combined hearts, forming a 4-leaf clover. She can wear this on test days or tournament days and know that you are thinking of her. It also comes with a sweet poem that fits inside the compartment:

Always Remember

You're **Braver** than you believe

Stronger than you seem

Smarter than you think

More **Beautiful** than you imagine

and more **Loved** than you

ever know
